

Print and layer MAGBOND<sup>®</sup> magnetic receptive sheets on top of a magnet base for a display that's unbelievably easy to install and incredibly fast to update.

### Common applications

- Large Format Graphics
- Interchangeable Graphics for POP
- Magnetic Wall Systems
- Visual Merchandising
- Control Charts / Menu Boards

### Print compatibility key:

- ES = Eco Solvent
- FL = Flexo
- L = Latex
- LS = Laser Print
- OF = Offset
- S = Screen Print
- UV = UV Curable

### MAGBOND<sup>®</sup> Benefits

- MAGBOND<sup>®</sup> magnetic receptive sheets offer the brightest white point (PET) on the market.
- MAGBOND<sup>®</sup> sheets have a smoother application surface (backside) providing better/stronger hold to the magnet.
- MAGBOND<sup>®</sup> sheets can ship in a simple mailing tube – saving on shipping costs.

## SYSTEM COMPONENTS

### MAGBOND<sup>®</sup> Magnetic Receptive Sheets

Our ultra-thin rubber based sheet delivers up to 60" wide of seamless message in rolls or cut to custom sheet sizes. MAGBOND<sup>®</sup> sheets allow for layering multiple images without glue or installation mess.

Item	Thickness (mil)	Width (inches)	Length (feet)	Lamination	Print Compatibility
22IS1060	10	60	100	White PET	L, UV
22IS1054	10	54	100	White PET	L, UV
22ISOL54	10	54	100	White PET	ES, LS, S
22IS1050	10	50	100	White PET	L, UV
22ISOL50	10	50	100	White PET	ES, LS, S
22ISAC53	28	53	70	Canvas	L, UV, ES, S
22ISAP50	13	50	100	White Art Paper	FL, LS, OF, UV

### Magnet Base

Our magnetic paint or self-adhesive magnetic sheeting is applied only once during initial installation. Let the Adams experts help you choose between standard energy, high energy or double sided magnet based on your installation needs and how many layers you will be using.

Display Attached to	Recommended Magnet	Description
Hard surfaces (where magnet affixed with adhesive)	22D0005 – Standard Energy Magnetized 1/s 22DW014 – Standard Energy Magnetized 1/s 22N0108 – High Energy Magnetized 1/s	.030 x 24.375 x 100Ft w/adh .030 x 48 x 50Ft w/adh .020 x 24.375 x 100Ft plain w/adh 1.59MG0e
Directly to wall with paint or primer, or to metal surfaces.	22KHE01 – High Energy Magnetized 2/s	.040 x 24.375 x 50Ft plain with protective backcoat, energy level 1.4MG0e

### MAGBOND<sup>®</sup> Paint

Our magnetic receptive paint contains finely ground metal shavings that attract magnets. It was developed for the MAGBOND<sup>®</sup> Magnet Media System.

Part #	Description	Size
22MP001	MAGBOND <sup>®</sup> Magnetic Receptive Paint	Quart Can
22MP002	MAGBOND <sup>®</sup> Magnetic Receptive Paint	Gallon Can
